Steve's Pro Audio Hire

Well a Big Huge Thanks for your support of our Cage Youth Mini Day Out by way of your Sound and Stage and professional input.

The Day was massive and enjoyed by many – these events are for lifting the profile of The Cage within the community at large.

We are set to undertake our life skills program with Alex Hills High School in the 3rd week of October starting with a group of approx 8 young men, one day a week for a period of approx 6 weeks until end of year, which we are very excited about and will be introducing our girls program YNot? in 2008.

As we have shared our heart is to Make a Difference in the lives of our young people, by way of providing healthy alternatives (Cage Mini Day Out events) and getting opportunity to 'Create a New Normal' via our life skills programs.

We also have our Driver Prepare program that we will be looking to secure support for and are hoping to introduce this in 2nd term of 2008 via local high schools.

Again thanks so much for your support – we will keep you updated with future developments

*Linda Grieve
